Dear Allen,

Thank you for your letter of July 8 (ER 5-7516) about the  
B.B.C. Monitoring Service.

I entirely agree with all you say about the value of  
monitoring from the intelligence point of view, and the importance  
of flexibility. We are at present engaged in reviewing certain  
aspects of our monitoring service and may have to consider making  
certain adjustments; but we have our agreement with the F.B.I.S. very  
much in mind, and will certainly see that they are kept fully informed.

Yours sincerely,
